

**These are the questions that need to be answered when submitting a project**

1. Project timeline (start/end dates + specific events and milestones); please use one line per entry, for example "15 February 2017-initial Skype meeting")
2. What specific results/outcomes can be expected from this project?
3. Strategic importance or added academic value of the collaboration
4. Enhancements in the international programming of departments or academic units
5. New connections and collaborations
6. Sustainability beyond the term of the seed-funding, including through faculty and department commitment and /or external support
